

Framework for Action

Climate-sensitive respect for human rights

Consider how climate change could impact the company's operating context(s) and stakeholders

- Extreme heat
- Severe weather events
- Sea-level rise
- Drought, fire and floods
- Biodiversity loss
- Water
- Migration
- Social unrest, conflict and violence
- Security

Rights-respecting climate action

Do human rights due diligence on the company's climate action and play a role in remediation

- Transition in
- Transition out
- Carbon trading
- Transport and logistics
- Packaging
- Recycling
- Automation
- Built environment
- Agriculture
- Value chain resilience

Embedding a better-connected approach

Ensure leadership, governance, coordination and capability support a connected approach

- Vision
- Commitments and targets
- Accountability
- Tone from the top
- Direction and roadmaps
- Culture
- Organisational and team structure
- Collaboration and coordination
- Cross-functional working groups
- Awareness-raising
- Information-sharing
- Training and capability-building
